

Pop Tops

2016 JOURNEY AND STARCRAFT

ENJOY THE FREEDOM
ONLY A POP TOP CAN BRING

It's easy to see why so many Australian holidaymakers opt for a Jayco Journey or Starcraft Pop Top. Combining the storage advantages of a Caravan, with the hitch-and-go freedom of a Camper Trailer, they're ideal for extended road trips, weekend getaways and everything in between.

Setup is a snap. So too is towing. Lighter, and more compact in transit, a Jayco Pop Top can be hauled more easily, and by a wide variety of vehicles. And when not en route to some fabulous holiday spot, it fits conveniently under your carport.

The all-new **JOURNEY** is our flagship Pop Top range. Available in your choice of 4 layouts – all with bathroom and shower – this sleek-looking RV is luxury on wheels. Fitted with high-end appliances, stylish appointments and elegant finishes, trims and soft furnishings, your every moment aboard will be spent relaxed in supreme comfort.

Your other option is one of our ever-affordable **STARCRAFT** Pop Tops. Both ranges are available in Outback versions, for pushing well beyond the bitumen. Like every RV that carries our name, both are also built to last.

And don't forget the other advantages of Jayco ownership – no matter which Jayco Pop Top you choose, you can look forward to:

- **nationwide support** from Australia's **largest dealer and service network**, comprising more than 100 locations around the country;
- **24-hour roadside assist*** for three years, ensuring you're only ever a phone call from the support you need; and a
- **comprehensive 12-month warranty** regarded as the industry benchmark.

Add up all the benefits, on this page and those that follow, and you'll start to see why Jayco RVs are rated number one for value; and why, just as importantly, they'll hold value better than any other brand should you ever decide to upgrade.

*conditions apply, refer to jayco.com.au for further information.

will take you

Offering prestige features without the premium price tag, the **STARCRAFT** Pop Top is regarded by many as the 'best looking, value for money' RV in Australia.

A popular choice for first-time buyers of all ages, its Jayco pedigree is obvious. You'll recognise it in the streamlined exterior; in the countless practical touches, inside and out; in the Eurostyle furnishings and quality appliances; and in the availability of Outback versions for each of Starcraft's 8 floor plans, allowing you to explore those harder to reach destinations.

It's little wonder people considering a pre-loved Pop Top are instead opting for a new Starcraft, and benefiting fully from Jayco's extensive warranty and other exclusive support services.

EXPERIENCE ALL THE COMFORTS
OF HOME, WHEREVER YOU ARE

Jayco has been designing space-efficient, feature-packed RV interiors now for four decades. So when you step inside one of our Pop Tops, expect to be pleasantly surprised.

The plethora of clever storage ideas is what many people notice first. Not just the number of cupboards and drawers, but their practical size and easy accessibility. Others are attracted by the multiple living zones, and the ample room you have for dining, meal preparation, watching TV, reading or a midday siesta. While others notice the meticulous attention to detail – Jayco’s legendary craftsmanship, quality materials and superior construction.

One thing’s for certain, regardless of where you begin, you’ll reach the same conclusion as countless others before you – that you can holiday far and wide in a Jayco Pop Top, and still enjoy all the comforts of home.

JOURNEY POP TOP INTERIOR

1 Spacious boot with LED light and convenient side door access [Starcraft]. **2** The rollout awning features integrated LED strip lighting. **3** Triple-lock door with a separate security screen for maximum protection. **4** Fridge/freezer with a sizeable 150-litre capacity [Journey]. **5** Spacious, modern look en suite shower with an exhaust fan [selected models]. **6** Eurostyle push out double-glazed windows with inbuilt roller blinds. **7** Stylish, full-featured en suite bathroom with multiple cupboards and drawers [selected models]. **8** The comfortable, extendable orthopaedic beds lift up to create additional storage. **9** Keep your cool throughout summer with air conditioning. **10** Kitchen drawers operate at the touch of a finger. **11** Eurostyle furniture combines comfort, style and hard-wearing practicality. **12** Four-burner gas cooktop with electric hotplate. **13** Light up your day with the 400mmx400mm roof hatch. **14** Catch your favourite shows on the 19.5" 12-volt LED TV with DVD player [Journey].

BUILT IN AUSTRALIA SINCE 1975
AND STILL GOING STRONG

Jayco RVs have been helping Australians live their holiday dreams for over 40 years. We began in 1975, in the garage of a suburban home; our ambition, to build a better Camper Trailer. Today, Jayco is the most popular brand on the market. We’ve built, sold and supported more than 180,000 RVs to date, and now operate a 20-hectare manufacturing facility in Melbourne that employs a local workforce of 1,000+ people.

From that first Camper, Jayco has made high-quality products that offer outstanding value for money and lasting peace of mind. It’s an advantage we deliver more than ever now through increased manufacturing efficiencies; proprietary technology, such as **JTECH SUSPENSION**, the **JAYCO TOUGH FRAME** and **JAYCO ENDURANCE CHASSIS**; and a commitment to using better materials, more precise craftsmanship, and ever-smarter design ideas and construction methods, for example:

- Our Eurostyle aluminium framed furniture features **protective curved extrusions** for strength and elegance, positive cupboard catches to secure your valuables in transit, and cabinet fronts that are screwed into place, not stapled
- Cushions are made from **high-resilience** foam, for years of comfort and support, and upholstery is treated with **antimicrobial protection** to inhibit mould, mildew and fungi, as well as dust mite protection to help prevent asthma and allergy-related conditions
- Tyres are **inflated with nitrogen** – not everyday air – reducing fuel usage, tyre wear and the risk of blowouts, while also improving ride and handling.

THE JAYCO TOUGH FRAME Jayco’s multilayered, vacuum-bonded walls are both stronger than those of conventional ‘timber & tin’ aluminium clad caravans, and offer greater thermal and acoustic insulation.

Starcraft models feature our quad-layer system, comprising internal wall ply and insulation, aluminium frame, external 3mm ply and external aluminium cladding, while the range-topping Journey models all boast the five-layer Jayco Tough Frame, as illustrated below.

1. **HAIL AND DENT RESISTANT, AERODYNAMIC FIBREGLASS EXTERIOR** with a high gloss finish
2. **EXTERNAL 3MM PLYWOOD BOARD** to increase structural strength
3. **ALUMINIUM FRAME** – not timber – for extra strength and longevity, plus galvanised plating for secure fitment of internal furniture
4. **INTERNAL HIGH-DENSITY POLYSTYRENE FOAM** for superior insulation
5. **INTERNAL 3MM PLYWOOD BOARD** CE coated for maximum durability

JAYCO PRESSED STEEL C-SECTION (PSC)
PSC floor members are lighter than conventional box section steel, 300% stronger and resist bending by 175%.

JAYCO ENDURANCE CHASSIS
An RV is only as strong as the base on which it’s built, so we build our Endurance Chassis to last like no other. Lightweight yet super strong, it’s hot dip galvanised for lifelong protection against corrosion, and features PSC member floor support, which better resist bending and compression, while also safeguarding under floor wiring and plumbing.

JAYCO OUTBACK

Some of Australia’s must-see destinations – the places you really want to explore – lie well beyond the bitumen. To help you see them, with all the comforts of home, each Jayco Journey and Starcraft Pop Top is also available in an Outback version, complete with a higher ground clearance, and a range of high-strength componentry and specialised features, including:

- JTECH Independent Suspension
- 120W solar panel and regulator
- 100AH battery
- 150mm x 50mm rectangular hollow section chassis members
- 125mm x 50mm rectangular hollow section ‘A’ frame
- Jerry can holder on A-frame (Jerry can not included)
- Rectangular hollow section galvanised bumper bar
- 8-inch jockey wheel
- AL-KO off-road electric brake magnets
- AL-KO outback drop jacks
- Protective aluminium checker plate on sides
- 15-inch alloy wheels with 235/75R15 tyres
- Rear black ABS moulds
- Pull-out single step
- External 12V auxiliary plug
- External Gas bayonet
- Jayco mud flaps.

Opting for a Jayco Outback version is not a licence to bush bash, mind you. But its extra strength and enhanced specifications will free you to travel the country’s unsealed roads safely and arrive relaxed. Even so, always take extra care and reduce your speed, especially when driving in unfamiliar territory. If in doubt, do what the 4WD experts do—use your Jayco as a base station and head into rougher terrain without anything in tow.

JTECH SUSPENSION

Purpose designed to complement the Jayco Endurance Chassis, JTECH Suspension replaces beam axles with individual stub axles, allowing each wheel to react independently to the road surface, while also lessening the chassis’ unsprung weight. Delivering **greater stability**, a **smoother ride**, more **precise handling** and **increased ground clearance without increased ride height**, it makes towing easier and safer than ever before.

Precision manufactured using automotive processes to ensure exact fitment, JTECH Suspension is the product of two years’ research and development at Jayco’s Melbourne headquarters, and countless kilometres of real world testing across the best and worst of Australian second class roads. Its features include:

- **ELECTROCOATED** surfaces for optimum protection against corrosion and stone chips
- **AL-KO STUB AXLES**, bearings and brakes that are suitable for fitment of AL-KO Electronic Stability Control
- Large diameter, heavy-duty **PEDDERS OFF-ROAD SHOCK ABSORBERS AND COIL SPRINGS** designed specifically for Jayco RVs and Australian conditions
- **AEON RUBBER SPRINGS** inside each coil spring, producing a progressing rate when the suspension is compressed; and
- **TOE-IN AND TOE-OUT** adjustment for wheel alignment.

OPTIONAL AL-KO ELECTRONIC STABILITY CONTROL

- A. Critical swerve or sway is detected.
B. Electronic Stability Control partially applies the RV brakes. The caravan is pulled into line behind the tow vehicle. The sway is stopped and the caravan brakes are released.

The tow ball and tare weight is only a guide and will change depending on accessories that are fitted to your van. It is advisable to discuss this with your Jayco Representative.

Jayco allow an amount of additional weight (Carrying Load) for each individual unit manufactured above the initial manufactured Tare Weight of the unit. This 'Carrying Load' is for the customers individual weight requirements and can be made up of 'any' additional weight they propose to load the unit up of. ie water, food, clothes etc.

The standard unit carrying loads Jayco apply are;
Single Axle, non internal shower units 300kg
Single Axle, internal shower units 375kg
Tandem Axle, non internal shower units 400kg
Tandem Axle, internal shower units 475kg

JAYCO OPTIONS

ADD THAT PERSONAL TOUCH It's through individual touches that the Jayco you choose becomes your own truly personal, home away from home. That's why we complement our range of feature-packed Journey and Starcraft floor plans, with a selection of high quality optional extras – all of them designed to integrate seamlessly with your Jayco, operate effortlessly, and look fabulous. Here are just a few:

- 01 Optional on touring models, the 120W solar system with regulator gives you power to spare.
- 02 Carry two full-sized bicycles with these lockable, easy load bike racks (select floor plans only).
- 03 Monitor water and battery levels with the Drifter LED control panel.
- 04 Check water and battery levels at a glance with the Coast to Coast control panel.
- 05 An external shower, including pop up shower tent, helps keep dirt and sand outside, where it belongs.
- 06 Optional on touring models this 100 Amp deep cycle sealed battery lets you self-power 12V equipment and appliances.
- 07 With a slide out BBQ you can entertain while you cook (select models only).
- 08 This handy foldout table unclips in an instant to provide the extra table space you need.
- 09 Fusion CD/Radio stereo system includes both indoor and outdoor speakers.

TRIMS

FREEDOM OF CHOICE The freedom you'll enjoy with your Jayco begins before you even place your order. We offer a wide range of great looking, hard-wearing, easy-to-clean finishes, fabrics and soft furnishings in both contemporary and classic styles, for you to choose and coordinate as you wish.

PROUDLY SUPPORTING THE PURSUIT OF GOOD HEALTH Across four decades, Jayco has passionately supported community health initiatives, charities, sports and sporting teams. Our commitment to contribute to those in need, promote the benefits of an active lifestyle, and assist sports people achieve their potential – be it at elite level or grass roots – remains undiminished. Below are just a few ways we're helping make a difference today. For more, visit jayco.com.au.

WOMEN'S NATIONAL BASKETBALL Long time supporters of women's basketball, Jayco is now naming rights sponsor for the Opals, the Emerging Opals, the Under-19 Gems and Under-17 girls' national teams.

STATE OF THE ART COMPLEX

Built in Australia since 1975 - and still going strong. In 2007, Jayco moved into its current 50-acre state of the art complex at 1 Jayco Drive, Dandenong South, Victoria, with a purpose-built 60,000sqm undercover manufacturing complex. This is where all Jayco RVs are made.

Australia's most recognised brand for quality and affordable recreational vehicles, Jayco is a great success story of Australian manufacturing.

Employing over 1,000 Australians, Jayco continues as a locally owned family business.

TO BE THE BEST, you need to work with the best
