## FREEDOM COMES EASY WITH JAYCO SILVERLINE

Whether you plan to explore Australia a month at a time, getaway to your favourite holiday spot on a regular basis, or set off on a lap with no fixed return date, your Jayco Silverline will make you feel right at home every moment you're away.

# WHERE MOMENTS BECOME MEMORIES

You'll love the comfort, style and space, the long list of included features, and the freedom to choose from a variety of floor plans personalised to your taste, through the fabrics, finishes and accessories of your choice.

The practicality of your Jayco will also impress. You'll find everything works simply and intuitively, every surface cleans effortlessly, and every must-have and nice-to-have fits easily in the smart storage solutions that keep your belongings secure yet always at the ready.

There's no better way to see our beautiful and wide-open countryside than from a beautiful and wide-open RV. The spacious Silverline is the perfect place to unwind after a day of exploration and taking in the sights.

## SILVERLINE TURNS EVERY TRIP INTO A LUXURY HOLIDAY

It's obvious from the moment you lay eyes upon Jayco's Silverline that there's something very special about it, and it only gets better the closer you look.

Meticulously crafted joinery and upholstery are paired with a comprehensive selection of bespoke appointments to create a sophisticated sense of style. The extra-large living area features ample space for socialising and dining, as well as super-comfortable deep cushion seating perfect for reading, watching a film or simply kicking back and relaxing.

The kitchen's generous workspace and array of high-end appliances makes meal preparation convenient and easy. In the bathroom, a large square shower recess is included alongside the modern-style vanity and 3kg washing machine.

The incorporated air conditioning system keeps the climate pitch perfect all day, every day.

The interior décor is available in your choice of sophisticated colour scheme, with five choices of leather finish.

**01** JHub – an app-driven control hub for managing Silverline's on-board features. **02** Catch your favourite shows on the 21" 12-volt LED TV with DVD player. **03** Two-door fridge/freezer (3 way) with a massive 174-litre capacity. **04** Four-burner cooktop (three gas, one electric) with flame failure protection and oven. **05** Three-tier pull out pantry for all those essential ingredients (selected models). **06** 'Soft close' kitchen drawers operate at the touch of a finger.

## THE STYLISH SILVERLINE OFFERS ALL THE COMFORTS OF HOME, AND THEN SOME

With all the modern conveniences, creature comforts and little luxuries that one would expect from a bespoke modern home, the interior of the Silverline is complete in every way imaginable.

It's sure to impress while on the road as well; for comfort and safety, the 2017 model of Jayco's touring flagship incorporates the latest JTECH suspension in addition Electronic Stability Control as a standard feature.

The interiors are available in seven spacious floorplans – all of which include slide-outs for even more interior space and flexibility. All are also available as Outback versions, perfect for more adventurous travellers who want to go a little deeper into the countryside.

**01** Gas bottles are accessed externally via a convenient slide out tray. **02** Wardrobe features hanging rack with ample storage. **03** 150 watt solar system with regulator gives you power to spare. **04** The inbuilt washing machine boasts a 3kg load capacity. **05** Stainless steel large sink with removable drain/chopping board. **06** Slide-out bedroom featuring overhead and side storage. **07** Spacious, modern look en suite shower with an exhaust fan. **08** The rollout awning features integrated LED strip lighting.

# JAYCO OUTBACK

Some of Australia’s must-see destinations – the places you really want to explore – lie well beyond the bitumen. To help you see them, with all the comforts of home, each Jayco Silverline is also available in an Outback version, complete with a higher ground clearance, and a range of high-strength componentry and specialised features, including:

- JTECH Independent Suspension
- 150W solar panel and regulator
- 150mm x 50mm rectangular hollow section chassis members
- 125mm x 50mm rectangular hollow section A-frame
- AL-KO off-road electric brake magnets
- AL-KO outback drop jacks
- Protective aluminium checker plate on sides
- 16-inch alloy wheels with 245/70R16 tyres

- Foldaway single step
- External 12V auxiliary plug
- External gas bayonet
- Jayco mud flaps
- External shower
- A-frame tray
- Stoneguard protection

Opting for a Jayco Outback version is not a licence to bush bash. But its extra strength and enhanced specifications will free you to travel the country’s unsealed roads safely and arrive relaxed. Even so, always take extra care and reduce your speed, especially when driving in unfamiliar territory. If in doubt, do what the 4WD experts do—use your Jayco as a base camp and head into rougher terrain without anything in tow.

# SILVERLINE TECHNOLOGY

## JTECH SUSPENSION

Purpose designed to complement the Jayco Endurance Chassis, JTECH Suspension replaces beam axles with individual stub axles, allowing each wheel to react independently to the road surface, while also lessening the chassis’ unsprung weight. Delivering greater stability, a smoother ride, more precise handling and increased ground clearance without increased ride height, it makes towing easier and safer than ever before.

Precision manufactured using automotive processes to ensure exact fitment, JTECH Suspension is the product of two years’ research and development at Jayco’s Melbourne headquarters, and countless kilometres of real world testing across the best and worst of Australian second class roads. Its features include:

- Electrocoated surfaces for optimum protection against corrosion and stone chips
- AL-KO stub axles, bearings and brakes that are suitable for fitment of AL-KO Electronic Stability Control
- Large diameter, heavy-duty Pedders off-road shock absorbers and coil springs designed specifically for Jayco RVs and Australian conditions
- Aeon rubber springs inside each coil spring, producing a progressing rate when the suspension is compressed; and
- Toe-in and toe-out adjustment for wheel alignment

## JHUB CONTROL PANEL

Jhub is a new all-in-one control panel that brings together the next generation of RV technology and puts full control in your hands through one central and easy-to-use interface.

The app-driven control panel grants easy access to all features of your Silverline’s power, climate and water systems. This makes it easy to see at a glance how quickly your battery power is being consumed and what’s consuming it, as well as the current solar charge rates through the incorporated charging regulator. You can also change the behaviour of the water heating and lighting systems, as well as monitor the levels of incorporated fresh and grey water tanks. The system also incorporates a clock and calendar, as well as temperature monitoring features.

## SAFETY FIRST, WITH AL-KO ELECTRONIC STABILITY CONTROL

- A Critical swerve or sway is detected.
- B Electronic Stability Control partially applies the RV brakes. The caravan is pulled into line behind the tow vehicle. The sway is stopped and the caravan brakes are released.

TOUGH FRAME

Jayco's multilayered, vacuum-bonded walls are both stronger than those of conventional 'timber & tin' aluminium clad caravans, and offer greater thermal and acoustic insulation.

The range-topping Silverline models all boast the five-layer Jayco Tough Frame, as illustrated below.

Interlocking roof system

- 1 Hail and dent resistant, aerodynamic fibreglass exterior with a high gloss finish
- 2 External 3mm plywood board to increase structural strength
- 3 Aluminium frame – not timber – for extra strength and longevity, plus galvanised plating for secure fitment of internal furniture
- 4 Internal high-density polystyrene foam for superior insulation
- 5 Internal 3mm plywood board CE coated for maximum durability

STREAMLINE CHASSIS

A Caravan is only as strong as the base on which it's built, so we build our Streamline Chassis to last like no other. Lightweight yet super strong, it's hot dip galvanised for lifelong protection against corrosion and better resistance to bending and compression, while also safeguarding under floor wiring and plumbing.

JAYCO OPTIONS  
ADD THAT  
PERSONAL TOUCH

It's through individual touches that the Jayco you choose becomes your own truly personal, home away from home. That's why we complement our range of feature-packed Silverline floor plans, with a selection of high quality optional extras – all of them designed to integrate seamlessly with your Jayco, operate effortlessly, and look fabulous.

Should you need additional sleeping space from time to time, consider a bed converter, or an add-on room. If you like to entertain, an external slideout BBQ could be the go. While a bike rack is a must for those who like to explore destinations on two wheels.

- 01 Carry two full-sized bicycles with these lockable, easy load bike racks (select floor plans only)
- 02 An external shower, including pop up shower tent, helps keep dirt and sand outside, where it belongs (standard on Outback)
- 03 With this high-gain Satellite Dish your favourite free-to-air TV shows can go wherever you do
- 04 With a slide out BBQ you can entertain while you cook (select models only)
- 05 With Ezylevel take the guesswork out levelling and get it right the first time

BUILT IN AUSTRALIA  
SINCE 1975  
AND STILL GOING STRONG

Jayco RVs have been helping Australians live their holiday dreams for over 40 years. We began in 1975, in the garage of a suburban home; our ambition, to build a better Camper Trailer. Today, Jayco is the most popular brand on the market. We've built, sold and supported more than 180,000 RVs to date, and now operate a 20-hectare manufacturing facility in Melbourne that employs a local workforce of 1,000+ people.

From that first Camper, Jayco has made high-quality products that offer outstanding value for money and lasting peace of mind. It's an advantage we deliver more than ever now through increased manufacturing efficiencies; proprietary technology, such as JTECH SUSPENSION, the JAYCO TOUGH FRAME and JAYCO ENDURANCE CHASSIS; and a commitment to using better materials, more precise craftsmanship, and ever-smarter design ideas and construction methods, for example:

- Our Eurostyle aluminium framed furniture features **protective curved extrusions** for strength and elegance, positive cupboard catches to secure your valuables in transit, and cabinet fronts that are screwed into place, not stapled
- Cushions are made from **high-resilience** foam, for years of comfort and support, and upholstery is treated with **antimicrobial protection** to inhibit mould, mildew and fungi, as well as dust mite protection to help prevent asthma and allergy-related conditions
- Tyres are **inflated with nitrogen** – not everyday air – reducing fuel usage, tyre wear and the risk of blowouts, while also improving ride and handling
- Silverline models feature Jayco's new **interlocking roof system** with extruded corners, which increases structural strength and stability, offers better insulation, provides superior wet weather performance and creates a cleaner, more streamlined appearance

State of the art complex

Built in Australia since 1975 – and still going strong. In 2007, Jayco moved into its current 50-acre state of the art complex at 1 Jayco Drive, Dandenong South, Victoria, with a purpose-built 60,000sqm undercover manufacturing complex. This is where all Jayco RVs are made.

Australia's most recognised brand for quality and affordable recreational vehicles, Jayco is a great success story of Australian manufacturing.

Employing over 1,000 Australians, Jayco continues as a locally owned family business.

CHOOSE JAYCO  
AND YOU'LL  
NEVER LOOK BACK

The freedom you experience when purchasing a Jayco extends beyond being able to travel where you want, when you want, for however long you want. There's also freedom from worry.

It comes from realising you've chosen the best value RV brand that money can buy, and that it will hold value better, for longer. It's also the peace of mind of knowing Jayco will always be there for you – through our comprehensive warranty, complimentary roadside assist service, or the convenience of Australia's largest RV dealer network.

Freedom from doubt, from second-guessing, from 'what if' – it's the feeling only an Australian-made Jayco can provide, and it's why our RVs are the first and only choice for so many.

NATIONWIDE SUPPORT  
100+ SERVICE AND DEALER LOCATIONS

With more than 100 approved service centres nationwide, the Jayco support network is easily the best and most comprehensive in Australia. No matter where the road takes you, the expertise or spare parts you need are never far away.

3 YEARS' ROADSIDE ASSIST  
24 HOURS A DAY, 365 DAYS OF THE YEAR

Every new Jayco RV comes with one feature that no other RV manufacturer can match— complimentary 24-hour Roadside Assist for three full years. No matter where you travel in Australia, as a Jayco owner, you're only ever a phone call away from the help you need in the event of an on road emergency. Please refer to [jayco.com.au](http://jayco.com.au) for more information.

WARRANTY PROGRAM  
12 MONTHS' COMPREHENSIVE COVERAGE

The Jayco 12-month warranty is our promise that the RV you purchase will be free from poor workmanship and material defects. Regarded as the industry benchmark, it lets you relax on your travels, safe in the knowledge that Australia's largest RV dealer and service network has you covered.

BETTER VALUE  
MORE FEATURES FOR LESS

Every model Jayco comes equipped with standard features that other brands offer only as options. Buying power is the key—nearly one in two RVs on Australian roads carries our name. We're also the nation's most efficient RV manufacturer. By passing on the benefits of these production advantages, we ensure Jayco remains Australia's best value for money RV.

GREAT RESALE VALUE  
A SMARTER INVESTMENT IN THE LONG RUN

As you travel life's journey your needs may change. Your growing family may outgrow your current RV. Or you may retire and want to upgrade before embarking on the big trip you've always dreamed about. Whatever your reason for selling, you'll find a Jayco holds its value.
